

Thoughtful Products & Practices

- Many paper products have an ecolabel, such as toilet paper and tissues
- Housekeeping uses eco-certified cleaning products, benefiting both the environment and our teams
- A plant-forward menu offers refined vegetarian and vegan options

Energy, Water & Emissions

- At least 75% of our lighting is energy-efficient, reducing overall consumption throughout the hotel
- Water-saving shower systems deliver comfort while limiting usage to 8 liters per minute
- EnergySaver cards in the hotel rooms make sure electricity is turned off when leaving the room
- There is an electric car charging station in our parking

Smarter Stays, Better Tomorrow

We're committed to creating great experiences for our guests and our team — today and in the future. That's why we take responsibility for our environmental and social impact. We're proud to be Green Key certified, an international standard for sustainable hospitality.

Your Stay, Your Impact

- Reuse towels by simply hanging them up
- Discover the destination by bike or public transport
- Ask our team for nature and local experience recommendations.
- Use refillable bottles and cups to reduce plastic waste
- Support local artisans when purchasing souvenirs
- Help us recycle by using in-room waste separation bins

Waste Reduction

- Bathroom amenities are provided in refillable dispensers to minimize plastic waste.
- Waste is carefully separated and recycled, including paper, glass, and organic materials
- We aim to work with the principle 'reduce, reuse, recycle'
- Our breakfast buffet prioritizes fresh, minimally packaged products
