TRIBUTE PORTFOLIO

Responsible Hospitality, Today and Tomorrow

Creating exceptional experiences for our guests and our teams is at the heart of what we do, now and for the future. That is why we take responsibility for our environmental and social impact. We are proudly Green Key certified, the leading international standard for sustainable hospitality.

Your Stay, Your Impact

- Reuse towels by simply hanging them up
- Discover the destination by bike or public transport
- Ask our team for nature and local experience recommendations.
- Use refillable bottles and cups to reduce plastic waste
- Support local artisans when purchasing souvenirs
- Help us recycle by using in-room waste separation bins

Thoughtful Products & Practices

- Housekeeping uses eco-certified cleaning products, benefiting both the environment and our teams
- A plant-forward menu offers refined vegetarian and vegan options
- We offer DripDrop umbrellas made from 100% recycled plastic; each rental plants one tree in Mozambique
- Housekeeping is optimized for sustainability: bedlinen is changed only when requested or necessary, and guests are invited to reuse towels

Energy, Water & CO₂

- Energy-efficient LED lighting reduces overall consumption throughout the hotel
- Water-saving shower systems deliver comfort while limiting usage to 7 liters per minute
- Our electricity is sourced from European wind and solar energy
- Guestroom heating and cooling switch off automatically when windows are opened to prevent energy loss

Waste Reduction

- Bathroom amenities are provided in refillable dispensers to minimize plastic waste.
- Waste is carefully separated and recycled, including paper, glass, and organic materials
- Our breakfast buffet prioritizes fresh, minimally packaged products
- We aim to work with the principle 'reduce, reuse, recycle'
