

A Responsible Luxury Experience

At our hotel, exceptional experiences go hand in hand with responsibility, for our guests, our people, and the world around us. Today and for the future. We are proud to be Green Key certified, the leading international standard for sustainable hospitality.

Your Stay, Your Impact

- Reuse towels by simply hanging them up
- Discover the destination by bike or public transport
- Ask our team for nature and local experience recommendations.
- Use refillable bottles and cups to reduce plastic waste
- Support local artisans when purchasing souvenirs
- Help us recycle by using in-room waste separation bins

Thoughtful Products & Practices

- Housekeeping uses eco-certified cleaning products, benefiting both the environment and our teams
- A plant-forward menu offers refined vegetarian and vegan options
- Many paper products have an EU ecolabel, such as toilet paper and tissues
- Housekeeping is optimized for sustainability: bedlinen is changed only when requested or necessary, and guests are invited to reuse towels

Waste Reduction

- Bathroom amenities are provided in refillable dispensers to minimize plastic waste.
- Waste is carefully separated and recycled, including paper, glass, and organic materials
- We aim to work with the principle 'reduce, reuse, recycle'
- Our breakfast buffet prioritizes fresh, minimally packaged products

Energy, Water & Emissions

- Energy-efficient LED lighting reduces overall consumption throughout the hotel
- Water-saving shower systems deliver comfort while limiting usage to 9 liters per minute
- Our electricity is sourced from European wind and solar energy
- EnergySaver cards in the hotel rooms make sure electricity is turned off when leaving the room
