

## Thoughtful Products & Practices

- Many paper products have an ecolabel, such as toilet paper and tissues, and our daily cleaning products are officially eco-label recognized
- Housekeeping uses eco-certified cleaning products, benefiting both the environment and our teams
- A plant-forward menu offers refined vegetarian and vegan options
- The honeycomb on our buffet is from the beehives on the roof on Tampere Hall

## Energy, Water & Emissions

- All our lighting is energy-efficient, reducing overall consumption throughout the hotel
- Water-saving shower systems deliver comfort while limiting usage to 9 liters per minute
- We are LEED New Construction Certified

# Smarter Stays, Better Tomorrow

We're committed to creating great experiences for our guests and our team — today and in the future. That's why we take responsibility for our environmental and social impact. We're proud to be Green Key certified, an international standard for sustainable hospitality.

## Your Stay, Your Impact

- Reuse towels by simply hanging them up
- Discover the destination by bike or public transport
- Ask our team for nature and local experience recommendations.
- Use refillable bottles and cups to reduce plastic waste
- Support local artisans when purchasing souvenirs
- Help us recycle by using in-room waste separation bins

## Waste Reduction

- Bathroom amenities are provided in refillable dispensers to minimize plastic waste.
- Waste is carefully separated and recycled, including paper, glass, and organic materials
- We aim to work with the principle 'reduce, reuse, recycle'
- Our breakfast buffet prioritizes fresh, minimally packaged products
